

Upon completion of the Associate of Science (A.S.) Degree in Economic Crime Investigation, the graduate will be able to:

1. Exhibit effective oral and written communication skills.
2. Demonstrate analytical skills, and form a solid foundation of financial accounting concepts, principles and standards.
3. Demonstrate knowledge of the causation and impact of crime and criminal behavior in the United States.
4. Discuss the historical perspectives and the current roles of policing, the courts and corrections working individually and as a system to ensure social order.
5. Research, analyze and evaluate issues relating to constitutional and substantive law and apply the tenants of the legal system to circumstances within our free society.
6. Transfer to a baccalaureate degree program in economic crime investigation.
